The British Voice Association

Voice Clinics Information Booklet

This Voice Clinics Information Booklet has been produced to offer the general public “bite-size” information about voice clinics around the UK, offering useful information such as telephone numbers and what a particular clinic has to offer.

Please note that we do not have information on all the voice clinics around the UK . This booklet has been put together from (and relies on) information given to us from members of a voice clinic team.

If you are a member of a voice clinic team that does not have their clinic listed in the “bite-size” information section, and would like this rectified for next year’s issue, please could you contact the BVA with your own information using the same strict format as used by each clinic in this booklet. Email to: **administrator@britishvoiceassociation.org.uk** or send to: **The Administrator, British Voice Association, PO Box 10778, Nottingham NG5 0LB**

Thank you.
